Define your problem statement

Many shopping sites offer filters rather than chatbot supports. Some websites come with the chatbox support only for customer inquiries and not from a sales perspective. Intelligent chatbot support should be used to solve these problems. The primary goal of a chatbot is to provide support to the user to navigate to the desired products.

Stay in topic. Encourage wild ideas.
Defer judgment. Listen to others.
Go for volume. If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

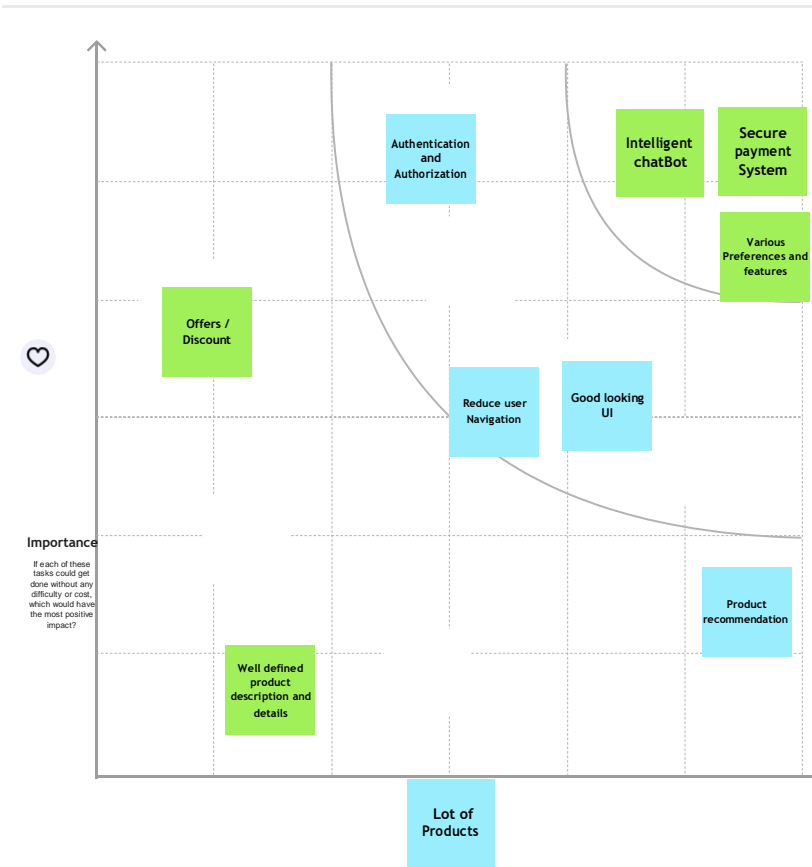

20 minutes

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
